1. Is this waste characteristically hazardous for metals or organics ( EPA Waste Codes D004-D043)?

Yes  No IF YES, PLEASE LIST IN SECTION C.

2. Does this waste contain underlying hazardous constituents as defined in 40 CFR 268 Part 2, Section 1 at concentrations exceeding the UTS treatment standards?  Yes  No IF YES, PLEASE LIST THE CONSTITUTENTS AND CONCENTRATIONS IN SECTION C.

GENERATOR CEERTIFICATION: I hereby certify that all the information in this and all other attached documents is complete, contains true and accurate descriptions and is representative of the waste material, and that all relevant information regarding known or suspected hazards in the possession of the generator has been disclosed. If Premier Environmental Services and any receiving facility discover after taking delivery of the waste that the waste does not conform to the identification or descriptions contained in the waste profile, Premier Environmental shall provide notice to the generator or representative of generator that waste does not conform. It will then be determined whether the shipment will be shipped back to generator. All costs associated with the shipments will be billed to the generator. Generator and/or representative of generator authorize Premier Environmental to amend or correct any information on the waste profile or manifests with the understanding that notification and copies of changes with changes in costs will follow within 48 hours of delivery of waste to facility.
